

FREDMAN BAKING PAPERS

The Fredman baking papers are perfect tools valued by kitchen professionals. The baking paper is made from the best, clean raw materials. The PEFC label found on the Fredman baking papers indicates that the wood raw material used in manufacturing comes from a sustainably managed forest and a controlled source. Baking papers protect food from sticking to GN trays. They also reduce food waste, as food does not stick to the bottom of the dish. Heat resistance 220 °C.
