FREDMAN

CUSTOMIZED PACKAGING

PACKAGING TAILORED TO YOUR NEEDS AND WITH YOUR OWN DESIGN

By choosing packaging that matches your brand with custom printing, you give the final touch to your delicious dish.

Food packaging is an essential part of a successful food product. We manufacture innovative and sustainable packaging for companies from cardboard, paper or non-woven fabric with custom printing. The food must stay fresh, taste good, and look appealing, even in the packaging.

FREDMAN BAKING PAPERS

Fredman baking papers protect GN pans from food sticking during cooking. This also reduces food waste, as food does not stick to the bottom of the dish. Fredman baking paper is made from the best,

clean raw materials. The PEFC certification found on the baking papers indicates that the wood raw material for the product comes from sustainably managed forests.

- Our baking papers have passed compostability testing according to the EN 13432 standard, but please follow local waste management guidelines.
- Heat resistance up to 250°C.

FREDMAN ELMU® CLING FILMS

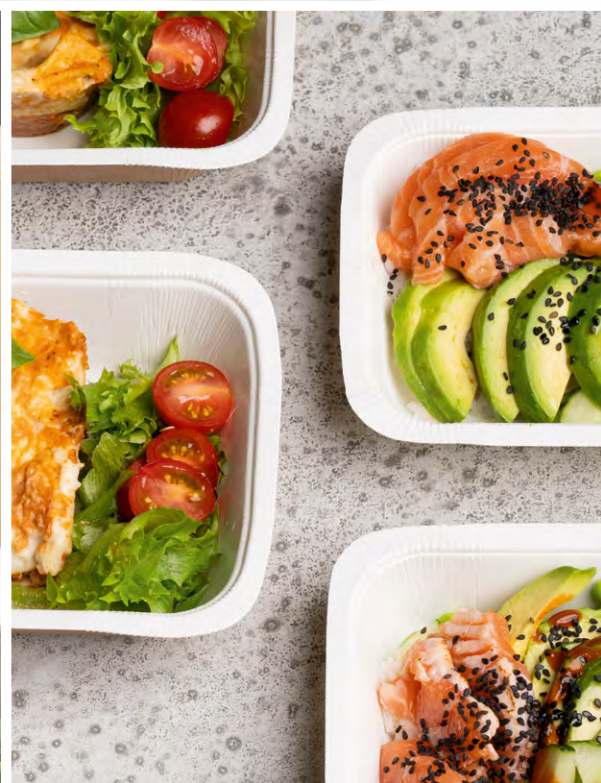

Elmu® cling film protects the best flavors as it is airtight and self-adhesive. It stays tightly in place on the edges of the dish. You can also use Elmu® cling film in cooking and baking, as it is suitable

for contact with moist, acidic, and fatty foods. It works for cooling, freezing, and heating food.

FREDMAN COMPLE® CARTON TRAYS

The wood fiber-based Comple® cardboard tray made in Finland is suitable for packaging both cold and hot food products. Comple® cardboard tray is the professional's choice for heating, freezing, storing, and transporting food safely and hygienically. The tray is sealed with a Comple® tray sealing device using PET film. Comple®

trays are part of Fredman's extensive meal service system and take-away concept. A responsibly manufactured package is itself a message to the customer. Comple® cardboard trays can also be customized to match the customer's own brand.

FREDMAN CARDBOARD WEDGES AND TORTILLA BOXES

Durable Fredman cardboard boxes are the professional's choice for transporting food. Triangle sandwiches, wraps, and other take-away products stay fresh and neat in cardboard boxes that resist moisture and grease thanks to their unique inner surface. The stylish boxes, made from sturdy material, make handling take-away treats easier, improve food safety, and most importantly, increase sales.

From our selection, you can choose either a hand-sealed or machine-sealed box. Machine sealing saves time and makes the box very tight. Boxes can also be customized with your own branding.

- Seamless PET coating on the inner surface
- Moisture and grease resistant
- Easy to recycle
